In the Claims

The claims, as filed, are maintained without amendment, cancellation, or addition. Claims remaining in the application are as follows:

1. (Original):   A method for creating album pages for a user, comprising:
displaying an image to the user;
receiving information from the user for said image, said information comprising ranking information; and
sizing said image based on said ranking information.

2. (Original):   The method of claim 1, further comprising generating an album page including said sized image.

3. (Original):   The method of claim 2, further comprising generating an album page including said sized image.

4. (Original):   The method of claim 1, wherein said image is a photographic image.

5. (Original):   The method of claim1, wherein said image is stored as image data, further comprising storing said ranking information in association with said image data

6. (Original):   The method of claim 5, further comprising repeating said displaying and said receiving for a plurality of images, before said sizing.

7. (Original):   The method of claim 6, wherein said sizing comprises sizing to zero all images associated with ranking information having a value less than a particular value.

8. (Original):   The method of claim 7, further comprising generating an album page that excludes said images sized to zero.

9. (Original):   The method of claim 1, wherein said ranking information has one of a plurality of discrete values.

1015.P055 US   -2-   Serial No. 09/838,972

10. (Original):   The method of claim 9, wherein said sizing comprises selecting a discrete image size corresponding to said ranking information.

11. (Original):   The method of claim 1, wherein said ranking information is received from a keyboard.

12. (Original):   The method of claim 1, wherein said ranking information is received from a mouse.

13. (Original):   The method of claim 1, wherein said ranking information is received from a selection control.

14. (Original):   A method for creating album pages for a user, comprising:
    displaying to the user a photographic image, said photographic image stored
        as image data;
    receiving information from the user for said photographic image, said input
        comprising ranking information having one of a plurality of discrete
        values;
    storing said ranking information in association with said image data;
    repeating said displaying, receiving and storing steps for a plurality of
        photographic images;
    sizing said photographic images by selecting a discrete image size
        corresponding to said ranking information;
    generating at least one album page comprising said sized photographic
        images; and
    printing said at least one album page.

15. (Original):   A digital camera, comprising:
    a camera processor;
    a camera storage device electrically connected to said camera processor;
    a camera display electrically connected to said camera processor; and
    at least one ranking control electrically connected to said camera processor, whereby
        a user utilizes said ranking control to select a ranking for an image shown on
        said camera display.

1015.P055 US   -3-   Serial No. 09/838,972

16. (Original):   The digital camera of claim 15, further comprising an enter control electrically connected to said camera processor.

17. (Original):   The digital camera of claim 15, wherein said at least one ranking control controls a cursor on said camera display.

18. (Original):   The digital camera of claim 15, wherein said at least one ranking control controls highlighting of a ranking option on said camera display.

19. (Original):   A computer program product, comprising
instructions for displaying an image to the user;
instructions for receiving information from the user for said image, said information comprising ranking information; and
instructions for storing said ranking information in association with said image.

20. (Original):   The computer program product of claim 19, further comprising instructions for sizing said image based on said ranking information.
